

0. This Club is Your Club – Dedicated to Woody

**This club is your club. This club is my club
From San Diego to Ventura pizza pubs;
From the red wood forest to the Baja waters
This club was made for you and Me.**

**We can sing about walking that ribbon of highway,
Or our reward in that endless skyway:
We can sing about mountains, or golden valleys:
This club was made for you and me.**

**We've played on guitars and ukuleles
On small harmonicas, and upright bases;
And all around us voices are sounding:
This club was made for you and me.**

**We've sung at DeBenneville, when the sun was shining,
And at Kenney Grove when it was pouring,
As the fog was lifting our voices were chanting:
This club was made for you and me.**

**Nobody living can ever stop me,
As we go walking Songmakers highway;
Nobody living can stop our singing
This club was made for you and me!**
